SW BID18V180S 18V Brushless Impact Driver - 180Nm - incl. 2x 5Ah Li-Ion battery, charger & toolbox

swepro SW BID18V180S - The compact 18V high-performance cordless impact wrench convinces with its high torque of 180Nm, its low weight and a short design. The long-life brushless motor is driven by a powerful SAMSUNG Li-Ion battery. Due to its energy-efficient motor control, a very long service life is possible. The digital touch control panel allows quick and easy selection between 2 work programs and 3 levels. A bright double LED ensures very good illumination of the working area. The LED display also shows the charge status of the battery. The versatile tool is ideal for drilling in wood, plastic and metal, as well as in numerous assembly applications. Included in delivery: Battery impact wrench in a handy case, two 5Ah batteries, charger, tool holder and operating instructions.

Technical data
